(647) 391-0416

Passionate Web Developer leveraging my background in procurement and product to build intuitive user experiences on the web. Recently earned a certificate in Full Stack Development from the University of Toronto and developed skills in JavaScript, CSS, React.js, Node.js and responsive web design. Excited to leverage my skills in the future as part of a fast-paced, quality-driven team to build better experiences on the web.

Work Experience

Senior Merchandiser
California Innovations - Toronto, ON
February 2018 to Present

• Coordinated with design team in developing project plans for prioritized initiatives.
• Requested quotes and negotiated prices for insulated lunch and cooler products to meet customer targets and company margins.
• Guided manufacturing process in oversea factories to meet customer expectations and industry standards and regulations.
• Monitored logistics operations to meet customer's requested ship dates.

Buyer
Amico Corp - Toronto, ON
July 2014 to June 2016

• Created purchase orders for customized headwall and cabinetry units for hospitals, verify purchase requisitions and expedite customer orders.
• Tracked order shipments and prepared spreadsheets detailing item information.
• Analysed inventory usage and forecasted purchasing trends to provide maximum coverage for each time period.
• Negotiated policies and contracts with vendors to achieve optimal pricing and consistent availability.
• Met with suppliers to assess changes and determine proper courses of action.
